Take a Closer Look

Name: KEY

EXTRA – Venn Diagram

- A boat with a flat top
- The tall tower (in both) is connected to a shorter building with a tower-like top (it is gone in 2025 picture)

Seen in both photographs

- Tall tower in the center
- Boats (but they are different)
- The canal
- Trees
- A long, three-story building with lots of windows to right of tower
- Overall impression – not much has changed!

- 2 boats – one of the far shore in front of tall tower (it's a replica packet boat) & one in foreground – a pleasure boat
- A red round tower to the left (FYI it was there in 1937, just not in the photo)
- The shorter tower-like building between the tall tower and the 3-story building is gone
